

Android JNI

JNI 란 ?

- Java Native Interface

시그네이처

- signatur

Java

```
com.example.androidaosp
```

```
public class SignaturActivity
```

```
...  
public native String fun_signatur();
```

```
public native String fun_signatur(String s);
```

```
public native String fun_signatur(int i, int j);
```

C/C++

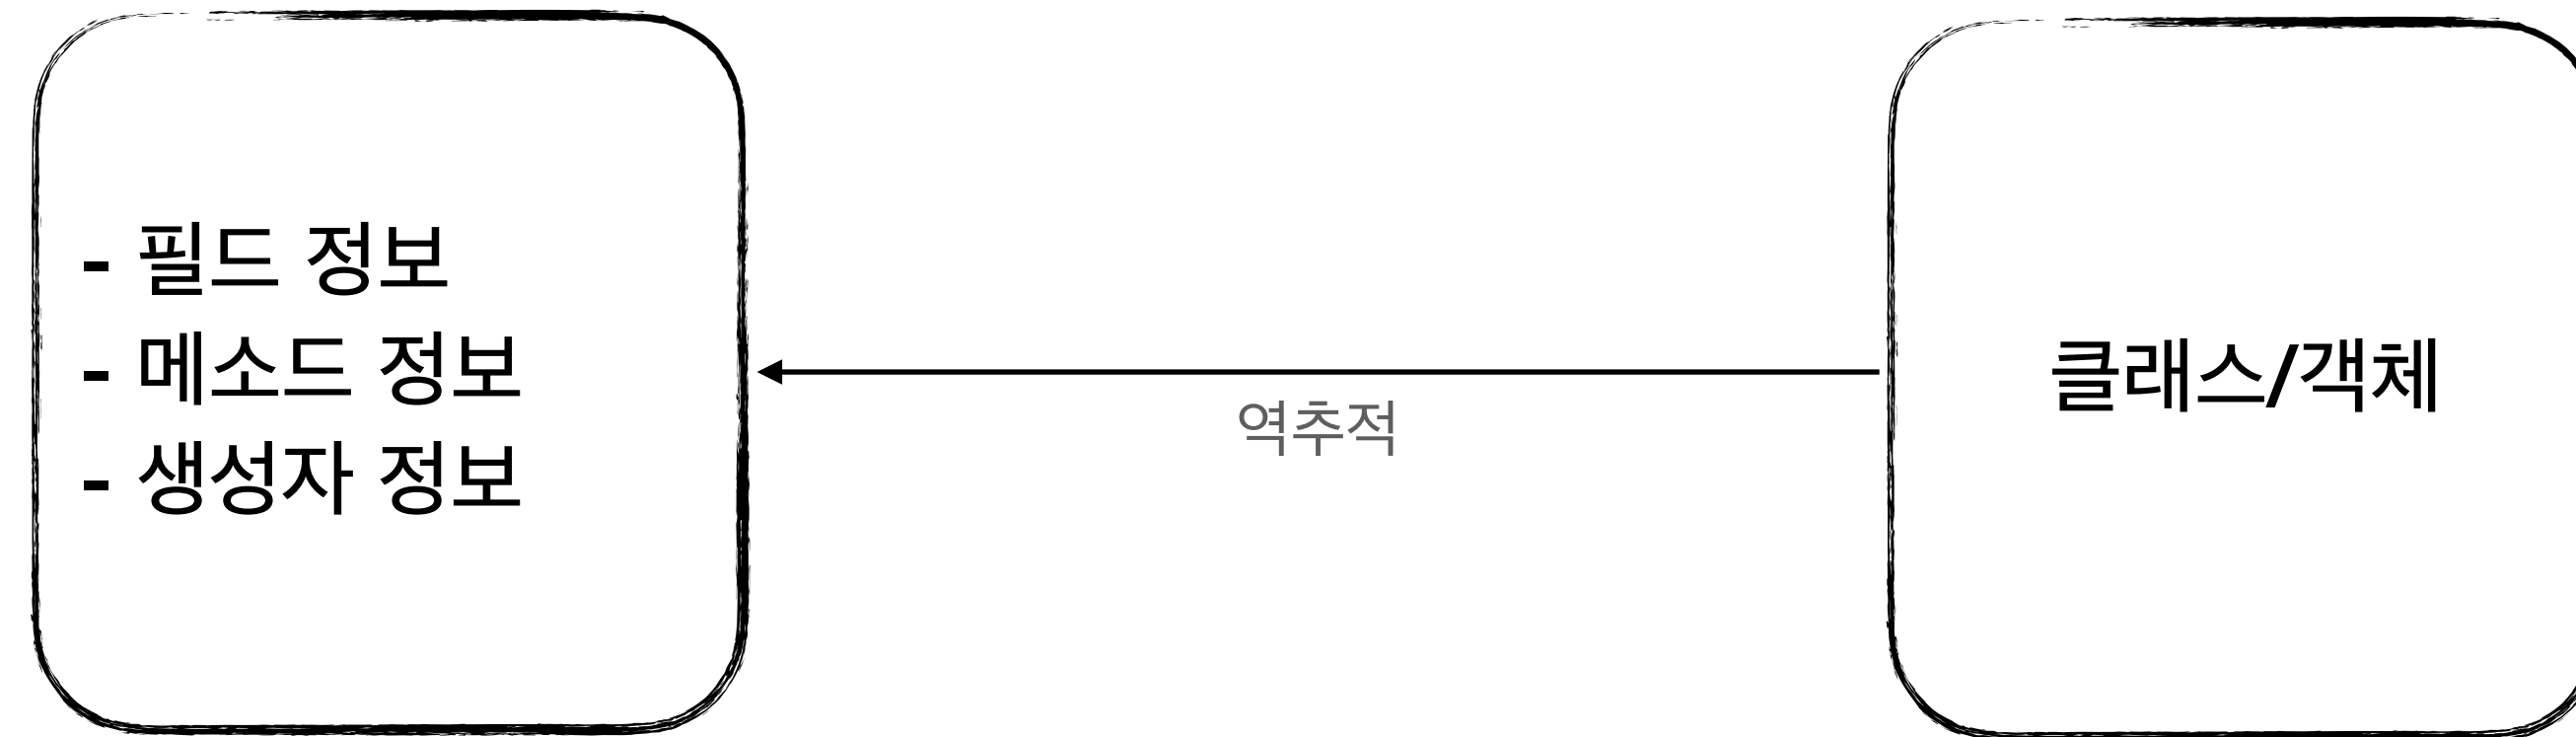

```
extern "C" JINEXPORT jstring JNICALL  
Java_com_example_androidaosp_SignaturActivity_fun_1signatur__(JNIEnv *, object);
```

```
extern "C" JINEXPORT jstring JNICALL  
Java_com_example_androidaosp_SignaturActivity_fun_1signatur__Ljava_lang_String_2  
(JNIEnv *, object, jstring);
```

```
extern "C" JINEXPORT jstring JNICALL  
Java_com_example_androidaosp_SignaturActivity_fun_1signatur__II  
(JNIEnv *, object, jint i, jint j)
```

Reflection

- JNI reflection

Reflection

- JNI reflection
