

# Android JNI

# JNI 란 ?

- Java Native Interface

# 시그네이처

## - signatur

Java

```
com.android.signatur
```

```
public class MainActivity
```

```
public native void  
fun_signatur();
```

```
public native int  
fun_signatur(String s);
```

```
public native int  
fun_signatur(double d);
```

C/C++

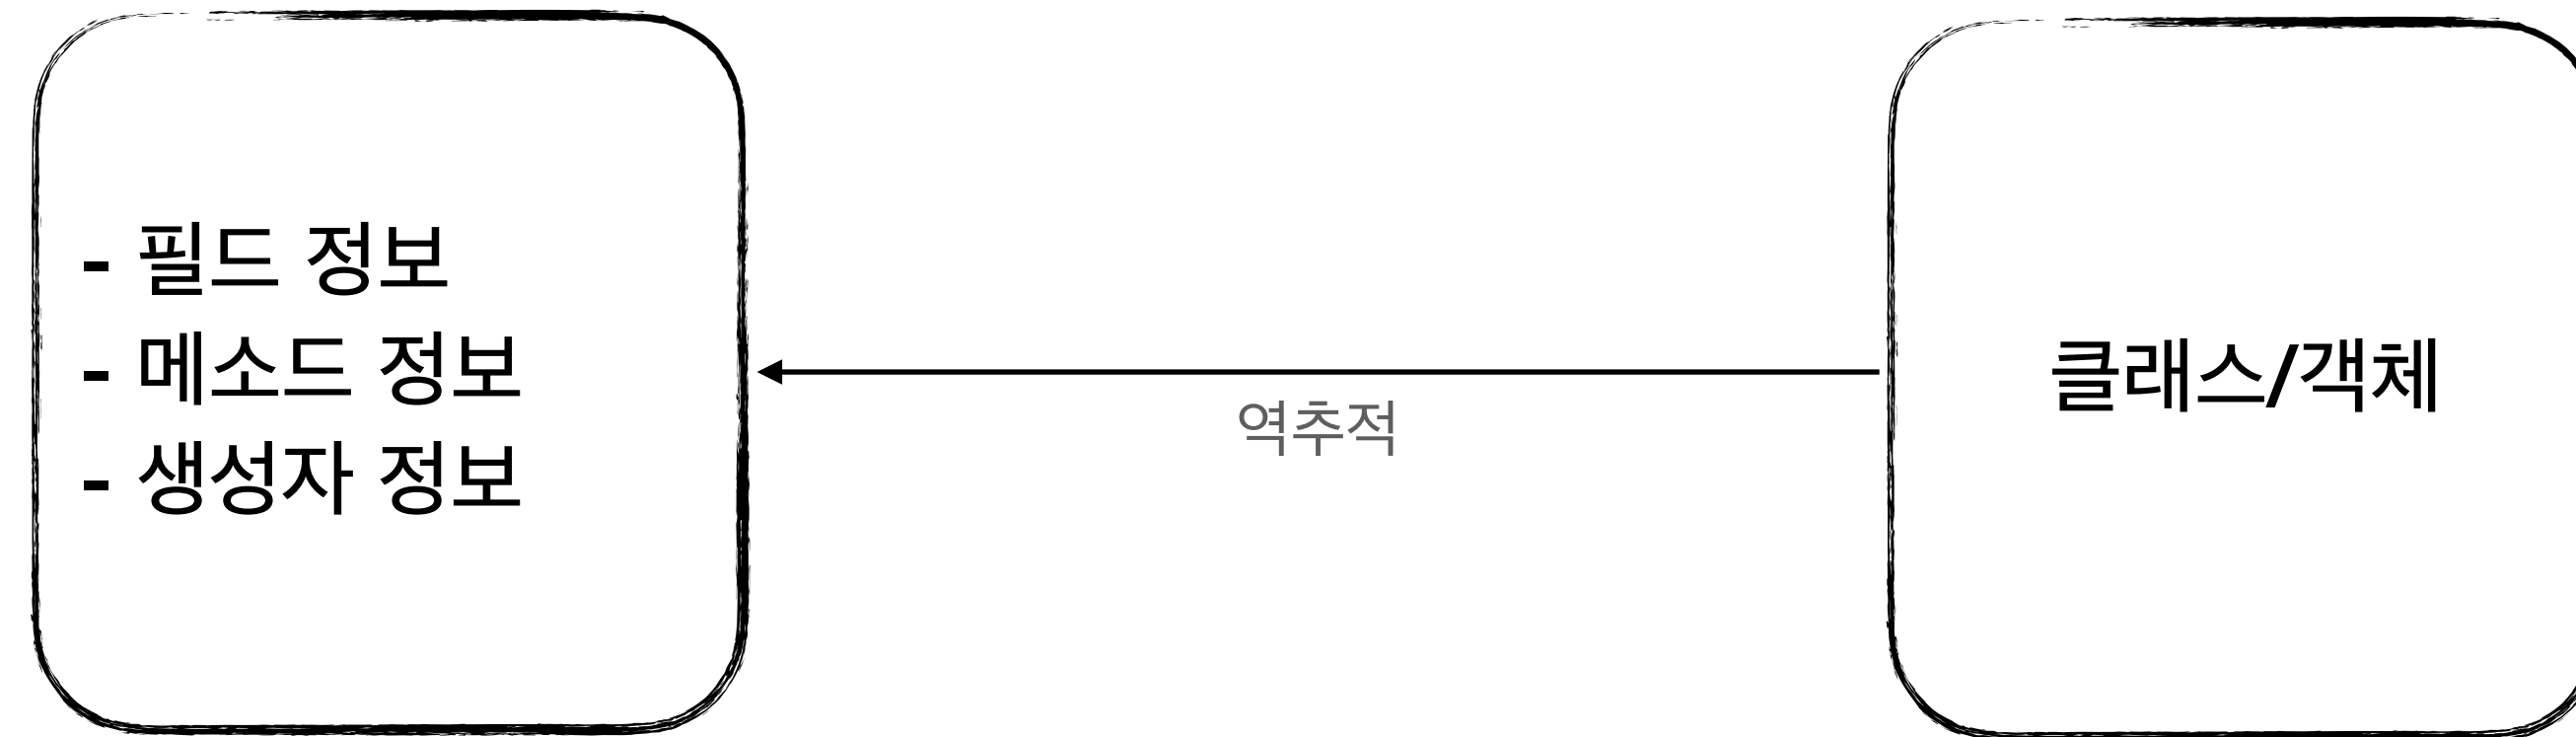

```
extern "C" JINEXPORT void JNICALL  
Java_com_android_signatur_MainActivity_fun_1signatur(JNIEnv *, object);
```

```
extern "C" JINEXPORT void JNICALL  
Java_com_android_signatur_MainActivity_fun_1signatur__Ljava_lang_String_2(JNIEnv *,  
object, jstring);
```

```
extern "C" JINEXPORT void JNICALL  
Java_com_android_signatur_MainActivity_fun_1signatur__D(JNIEnv *, object, double);
```
